

Title: *Sales Performance Analysis of Superstore Dataset*

Subtitle: HNG Stage 0 Data Analytics Project

By: Immanuel Oluwadoromi

Tools Used: Microsoft Excel

Dataset Overview

- **Dataset Name:** Superstore Sales Dataset
- **Source:** [Superstore Sales Dataset](#)
- **Records:** ~10,000 rows × 21 columns
- **Key Variables:** Order Date, Ship Date, Region, Category, Sub-Category, Sales, Profit, Quantity, Discount

Research Questions

1. What category generates the highest total sales revenue?
2. Which sub-category contributes most to total sales?
3. What is the total revenue generated across all sales?
4. What state generated the most sales?
5. What Shipping Method was used the most?
6. Who are the top 10 Highest spenders?
7. What particular product was sold the most?

Data Cleaning Summary

- Checked for missing Sales and Category entries
- Checked for duplicated cells
- Verified Numeric filed using excel filters
- Used Excel formulas and Pivot tables for calculations

Analysis Method

- **Descriptive statistics:** Total Sales, Mean Sales per Category.
- **Comparative analysis:** Pivot Tables to summarize by Category and Sub-Category.
- **Visualization tools:** Bar Charts, Pie Charts.

Category-Wise Sales Performance

Category	Sales (%)
Technology	36.5
Furniture	32.2
Office Supplies	31.3

Insight: Technology is the best-performing category, contributing over one-third of total revenue.

Sub Category Wise Performance

Sub Category	Sales
Phones	14.48%
Chairs	14.26%
Storage	9.70%
Tables	8.96%
Binders	8.86%
Machines	8.35%
Accessories	7.26%
Copiers	6.46%
Bookcases	5.03%
Appliances	4.63%

Insight: Phones drive most of Technology's revenue, while Chairs lead in Furniture.

Total Revenue

Total Sales Revenue: 2,265,425 USD

The business has generated over **\$2.27 million** across all categories.

Insights & Conclusions

- Technology leads in sales → focus inventory & marketing here.
- Furniture remains strong → potential for bundle promotions.
- Sales distribution suggests healthy diversity across categories.

Business is well-positioned to grow through targeted product focus.

Limitations & Future Work

Limitations:	Future Work:
Dataset covers limited years and regions.	Add time-series trend analysis.
No cost or profit margin data included.	Integrate profitability and customer segment data.
	Explore predictive analytics (e.g., future sales forecasting).
